WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A persistent ridge of high pressure will maintain warm and dry conditions early this week.
- Locally breezy north to northeasterly winds will increase today into Monday on top of record dry fuels for the time of the year.
 - This will result in slightly elevated fire weather conditions.
 - A weather system brings a cooling trend along with increasing humidities.

SOUTHERN CALIFORNIA

- Offshore winds will increase a bit on Tuesday with gusts below mountain passes and canyons forecast to reach 30-35 mph in the morning before subsiding.
- It will be warmer again west of the mountains with minimum relative humidity of 10-15%.
- The heat, drying, and local breezy conditions will elevate fire weather conditions once again.
